Sparrows Green Recreation Ground Playground and Public Conveniences

Residents will have seen the news advising that playgrounds can open from 4 July 2020.

The Parish Council received guidance from the National Association of Councils (NALC) on 26 June 2020. This guidance contained comprehensive advice on steps that councils should take to ensure the facilities are safe both for those who are using them and the staff maintaining them.

The Recreation Ground Management Committee met on Thursday 2 July 2020 and have agreed some actions to be taken prior to opening the playground and public conveniences at Sparrows Green Recreation Ground.

The playground and public conveniences at the recreation ground will remain closed but it is hoped that the Parish Council will be able to open them as soon as possible.

Wadhurst Parish Council's main concern remains the safety of the residents of the parish and its staff.
