Application No. WD/2022/3360/F

Description: DEMOLITION OF EXISTING WORKSHOP BUILDING AND CONSTRUCTION OF TWO DETACHED RESIDENTIAL DWELLINGS WITH ASSOCIATED ACCESS, CAR/CYCLE PARKING.

Location: LAND REAR OF MAGPIE, HIGH STREET, WADHURST, TN5 6AP

Decision: Approved

Comment from WDC to WPC: *The current site accommodates two parking spaces for the commercial workshop only (non for the retail or residential units associated with Magpie) and the proposal would provide two parking spaces for the 3-bed dwelling resulting in no increase in parking demand or traffic generation.*

The existing access is established and already in use by the workshop / application site. The access would not change as a result of the proposal and sufficient turning areas are proposed within the site to allow vehicle to enter and leave the site safely in forward gear.

A refuse storage area is shown within the site in proximity to the High Street vehicle entrance which would ensure bins do not need to be presented onto the High Street.

The Phase 2 Regulation 14 Wadhurst NP Policy WAD2 (Meeting Local Housing Needs) advises that proposals that will deliver smaller two-bedroom and three-bedroom dwellings to address the needs of single people, young couples, smaller families and the elderly will be supported. In addition, proposals that deliver truly affordable housing in nominal terms (i.e., those that are affordable for local people on local wages) will be supported. The proposal would provide a 2-bed and 3-bed unit in accordance with draft policy WAD2. There is specific requirement to provide assisted living units under draft policy WAD2.
