**Enforcement:**

**Notified by WDC**

**Issued/approved:**

**Application No.** WD/2023/1646/F

**Description:** erection of 1x detached dwelling

**Location:** BROCKFIELD, MAYFIELD LANE, WADHURST, TN5 6HX

**Decision:** approved.

**Comments from WDC to WPC:** *In response to the Parish Council's recent consultation comments on the above application at Brockfield, I just wanted to provide a bit of clarification. Saved Policy VB37 of the Wealden Local Plan 1998 does not preclude new residential development, but it sets out a number of criteria which must be adhered to within this policy area, namely:*

- 1) Development should reflect the low density character of existing dwellings and spaces around them;*
- 2) It should not result in the loss of trees, shrubs, hedges or other features;*
- 3) Landscaping should remain a dominant element of any scheme;*
- 4) The proposed development should not have an adverse visual impact on the surrounding countryside.*

*As the preamble to VB37 states, the development boundary was drawn up in such a way to prevent 'inappropriate backland development' or an extension of ribbon development. It does not necessarily mean that any or all development that lies beyond this line would be inappropriate. Each case is considered on its merits.*

*It is the Council's view that the majority of the application site falls inside the development boundary, where Policy VB37 applies (amongst others), whilst the proposed rear garden and part of the footprint of the proposed dwelling lie just outside the development boundary. If it is found to conform with the relevant criteria listed above then the proposal would not be in breach of saved Policy VB37, but it is acknowledged that part of the site lies just outside of the development boundary. The application will therefore fall to be assessed in accordance with all of the relevant policies that affect the site, both in relation to the parts that lie inside the development boundary, and outside.*

**Application No.** WD/2023/1937/F

Description: demolition of the existing rear single storey mono-pitch extension and replace with an 'orangery' style single storey extension. construct a new single storey side extension to the west elevation

Location: THE OAST HOUSE, BEST BEECH HILL, WADHURST, TN5 6JH

Decision: Approved

## WADHURST PARISH COUNCIL

*WDC Officer response to WPC: The application site is a residential property which contains numerous windows and openings on all elevation and already omits artificial light. It is not considered that the level of glazing incorporated (the side bay would replace two existing windows and the rear orangery would replace an existing extension with glazing) would materially increase the level of artificial light spill from the site or the wider area. The recommended condition for internal blinds for the roof and windows of the extension(s) is not necessary, reasonable or enforceable. The application will be assessed in relation to how well it meets the various criteria of Policy VB37, in terms of the proposed development respecting the established low density character of Mayfield Lane, retaining trees and landscaping features, as well as other policies within the Local Plan such as EN6 and EN27, regarding impacts on the AONB and on neighbour amenity. Relevant chapters of the Core Strategy Local Plan, the Wealden Design Guide SPD and various paragraphs of the NPPF will also be considered, as will the sustainability of the site with regard to access to local services. The Parish Council's request for conditions to be added is acknowledged and would be fully considered in due course as part of the Officer assessment of the application. I hope this helps to provide some clarification.*

Application No. WD/2023/1445/F

Description: installation of safety handrail to edge of existing flat roof.

Location: QUEENSWOOD, CASTLE WALK, WADHURST, TN5 6DB
